

Rotary jet head LPO-A50 / A90

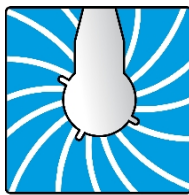

Technical data sheet

The LPO-A50 / A90 rotary jet head enables 3D jet cleaning over a defined period of time. It is operated by water power and guarantees safe and high-quality tank cleaning. Thanks to its special design, the use of high-quality materials and the exceptional precision in manufacturing, this rotary jet head is durable and easy to maintain.

Applications

Can be used in the beverage industry, dairy production, food industry, chemical industry, pharmaceutical industry
Industry

Spray pattern

360° 3D

Specifications	LPO-A50	LPO-A90
Cleaning radius max:	6 m	10 m
Container opening min:	65 mm	125 mm
Working pressure range:	3 - 12 bar	3 - 15 bar
Volume flow min / max:	30 - 167 l/min	167-317 l/min
Operating temperature max:	95 °C	95 °C
Standard materials:	1.4404	1.4404
Optionally available:	1.4435, 1.4571, HC22	1.4435, 1.4571, HC22
Connection	G3/4"	G1½"
Can be used in EX areas:	Yes	Yes
Available certificates:	2.2, 3.1, ATEX	2.2, 3.1, ATEX
